

Anti-Vandal / Anti-Slash Mesh

Description:

KnitMesh Technologies® knitted wire mesh is used in a number of applications as an anti-slash material. Flexible and heavy duty knitted mesh provides a structure that is slash resistant which is commonly used in bus, train and underground seating for protection against vandal attack.

Applications

Other applications include curtain side lorries to prevent both opportunistic theft and wanton vandalism.

Mesh is also often combined with synthetics to produce a composite material which finds uses in body armour within anti-slash jackets used by security forces such as the army and police.

Butchers gloves can also incorporate a layer of mesh helping to prevent accidental injury.

Quality Assurance

KnitMesh Technologies® is accredited to ISO9001:2008, ISO 14001:2004, OHSAS 18001:2007, PAS 99:2006 and ISO/TS 16949:2009
